

Quality Policy

Kerman delivers quality design and construction outcomes in the Mining, Industrial and Infrastructure sectors. We are committed to achieving client satisfaction on our projects through the provision of high quality products and services.

To fulfil this commitment, we shall:

- Identify and adhere to statutory and regulatory requirements, throughout our projects.
- Understand the needs and expectations of all interested parties and provide products and services that consistently meet or exceed their requirements.
- Action risks and opportunities identified that could impact our ability to deliver on our commitments.
- Provide a framework for setting measurable quality objectives and empower our people with adequate resources and training to achieve the required outcomes.
- Continually seek to improve the effectiveness of Kerman's Integrated Management System in compliance to the ISO 9001 standard.
- Ensure all our subcontractors, suppliers and consultants working with us comply with our Integrated Management System.

Mark Nagle
Managing Director
